

# Live Equipment Demonstrations From Top Brands

## RSVP Today

This event is free, but please RSVP to secure your spot before it's too late.  
RSVP at [www.SouthernStatesMachinery.com/Events](http://www.SouthernStatesMachinery.com/Events) or by calling 800.540.9713

## Nearby Lodging

Lodging is available in close proximity to Steel Tech 2023. Please call the hotel to reserve a room

**Holiday Inn Express | Mooresville**  
130 Norman Station Blvd,  
Mooresville, NC 28117  
(704)662-6900

**Hilton Garden Inn | Mooresville**  
159 Gateway Blvd,  
Mooresville, NC 28117  
(704)663-6468

**Fairfield Inn | Mooresville**  
120 Consumer Square Drive,  
Mooresville, NC 28117  
(704)663-6100

Join Us For  
**STEEL TECH**  
REVOLUTIONIZE YOUR BUSINESS

## What Last Year's Attendees Are Saying

"We got more out of your  
**STEEL TECH** show than  
we did **FABTECH**

Marty Miller, *President*  
Miller Metal Fabrication

May 9<sup>th</sup>  
9 AM – 7 PM

May 10<sup>th</sup>  
9 AM – 7 PM

May 11<sup>th</sup>  
9 AM – 4 PM

**SOUTHERN STATES**  
M A C H I N E R Y

# SCHEDULE OF EVENTS

ALL DAY

Equipment Demonstrations  
Interact with Factory Experts  
Network with Industry Peers

## TUESDAY, MAY 9<sup>th</sup>, 9AM – 7PM

### SEMINARS

**9:00 AM | HANDS ON: Cobot Programming 101, Conquering the Unknown**  
Stop by Universal Robots table top for a personal crash course with an engineer to see for yourself how the collaborative robot operates at your finger tips.

**HANDS ON: TRUMPF TRUARC WELD 1000**

Stop by the TruArc Weld 1000 for personal crash course to see how automated welding can operate at your finger tips.

**10:00 AM | MAMA–Mobile Robotic Bending Cell, Find Your Brake Operator**  
We have the solution to manpower. Upgrade your standalone press brake to an automated bending cell. Simple & safe automation with a Certified Systems Integrator.

**10:45 AM | 2D/3D CNC Routing & 5-Axis Machining to Complement Laser & Waterjet with CR Onsrud**  
What can CNC Machining, Routing and Milling Do For Your Cutting Process? Understand how 5-axis machining can open up the 3D world for fabricators and includes capabilities for metal, composites, rubber and wood.

**11:30 AM | TRUMPF Fiber Laser - Power by the Hour & 24kW Live Stream**  
More laser power. Lower costs. Determine which laser is right for your production and learn how to get the most power when you need it. Turn your 3kW laser into 6kW or 6kW into 10kW at the touch of a button.

**24kW Live Stream** - See the biggest, baddest laser on the market straight from Farmington HQ and learn exactly what this new technology means for your future.

**12:00 PM | Lunch**

**1:00 PM | Flow Waterjet Cutting – Versatility in Action. Any Material, Any Thickness, No Heat Affect**

Flow is revolutionizing waterjet cutting with maintenance free pump options and the quietest pumps in the industry offering ultimate uptime & performance. Add the capability of 5 axis cutting on any material up to 12" with Flow. Live cutting at the show.

**2:00 PM | FINISHLINE – The All-in-One Deburring & Finishing Solution**

Learn how to deburr, grain, edge round, remove oxide and dross in one machine that eliminates hours of manual processing.

**3:00 PM | Taking CNC Plasma Cutting to the Next Level with KINETIC Systems**

Reduce plate processing time, increase output and maximize profitability with new automation innovations in plasma cutting machines, combination cutting, milling & drilling machines.

**4:00 PM | Networking, Happy Hour & Early Dinner**

## WEDNESDAY MAY 10<sup>th</sup>, 9AM – 7PM

### SEMINARS

**9:00 AM | HANDS ON: Cobot Programming 101, Conquering the Unknown**  
Stop by Universal Robots table top for a personal crash course with an engineer to see for yourself how the collaborative robot operates at your finger tips.

**HANDS ON: TRUMPF TRUARC WELD 1000**

Stop by the TruArc Weld 1000 for personal crash course to see how automated welding can operate at your finger tips.

**10:00 AM | CNC Bending by TRUMPF**  
Press Brakes, Robotics, Panel Bending, Software, Tooling: What's the right technology to improve your bending process? Should you automate your bending? Let us help you determine what will give you the greatest return on your investment.

**10:45 AM | Automate Your Welding Operation: Laser Welding vs MIG Welding and Why**  
Understanding the ROI and benefits of laser vs MIG welding and which robotic solution is right for you.

**11:30 AM | The New Smart Factory: Approachable Automation to Lights Out Production**  
TRUMPF's Felix Weigelt takes us on an automation journey. What could your business look like and what is the process to make it happen?

**12:00 PM | Lunch**

**1:00 PM | 6 Things to Consider When Choosing a CNC Plasma Table**  
What are the advantages? Who Needs One? What has changed in plasma technology? Learn what ALLtra has to offer from plasma and oxy-fuel cutting for sheet, tube, pipe, plate, edge-beveling, marking and beyond.

**2:00 PM | Tube Talk: TRUMPF Tube Laser and CNC Tube Bending by Transfluid**  
Eliminate the saw, mill, drill press and grinding with one laser operation for tube, and learn how Transfluid's CNC bending seamlessly integrates with TRUMPF's tube laser technology.

**3:00 PM | Punch, Laser, or Combination Punch/Laser?**  
Learn about the best of both worlds with TRUMPF's combination Punch/Laser technology. Reduce processing time by punching, bending, forming and cutting all within one machine.

**4:00 PM | Networking, Happy Hour & Early Dinner**

## THURSDAY MAY 11<sup>th</sup>, 9AM – 4PM

### SEMINARS

**9:00 AM | Flow Waterjet Cutting – Versatility in Action. Any Material, Any Thickness, No Heat Affect**  
Flow is revolutionizing waterjet cutting with maintenance free pump options and the quietest pumps in the industry offering ultimate uptime & performance. Add the capability of 5 axis cutting on any material up to 12" with Flow. Live cutting at the show.

**10:00 AM | CNC Bending by TRUMPF**  
Press Brakes, Robotics, Panel Bending, Software, Tooling: What's the right technology to improve your bending process? Should you automate your bending? Let us help you determine what will give you the greatest return on your investment.

**10:45 AM | Re-thinking Robotic Plasma Cutting with Vectis Automation & PRODECVO Systems**  
From portable, on-cart collaborative robots eliminating manual layouts and cutting, to the most advanced robotic plasma steel cutting cell available, learn how to increase your structural fabrication productivity for jobs big and small.

**11:30 AM | TRUMPF Fiber Laser - Power by the Hour & TruLaser Center 7030**  
More laser power. Lower costs. Determine which laser is right for your production and learn how to get the most power when you need it. Turn your 3kW laser into 6kW or 6kW into 10kW at the touch of a button to cut thicker and faster.  
**TruLaser Center 7030** - One machine that takes care of everything from the drawing to the sorted part. Eliminate slats, cut, sort, stack and feed back into a storage system for unmatched efficiency.

**12:00 PM | Lunch**

**1:00 PM | MAMA–Mobile Robotic Bending Cell, Find Your Brake Operator**  
We have the solution to manpower. Upgrade your standalone press brake to an automated bending cell. Simple & safe automation with a Certified Systems Integrator.

### Brews & Bottlenecks:

### Fabricators Embracing Change

**Networking & Speaker Series** | Starting at 3 PM on Tuesday and Wednesday, join us in the tent for a Brews & Bottlenecks session. Hear from industry experts, network with other fabricators, and enjoy a beer from a local brewery.
