## SERVICE & APPLICATION ENGINEERING

Our Factory-trained technicians provide a wide range of repairs including both maintenance and application engineering services. From preventative maintenance plans, to warranty service, to last-minute repairs to keep your shop running smoothly, you can count on us to help minimize downtime and keep your business operating at maximum capacity.

### OUR SERVICE INCLUDE:

- > Training Service
- > Machine Repairs
- > Installation
- > Programming
- > Preventative Maintenance
- > Application Engineering

## CERTIFIED PRE-OWNED MACHINE TOOLS

We carry a wide range of high quality pre-owned machine tools that can help your shop increase capability without the high costs associated with buying a new machine. Many of our machines are refurbished or come with a factory service plan. All of our used machinery represents a great value when compared to buying brand new equipment.

Visit our website to browse or current list of pre-owned machine tools that could boost your bottom line.

## EDUCATIONAL EVENTS

At Southern States Machinery, we're committed to helping you stay on the cutting edge of manufacturing technology. That's why we offer a variety of events, seminars, webinars, live demos and educational opportunities. Even creating lasting partnerships with technical universities such as PIT Weld U to support the future workforce our industry.

Explore the list of upcoming events on our website and RSVP today for any that sound appealing. We look forward to helping you learn the latest tips and tricks that will make your business more successful!
